

Spa pleasure simplified all year round

COVANA

Get the most of your swim spa in all weather and seasons

Covana CS1000

Elegant, modern and easy to use, the Covana CS1000 is the perfect complement for your swim spa.

Fully automated

The Covana CS1000 raises and lowers with a key switch for absolute simplicity all year round.

Safe

The Covana CS1000 covers the entire surface of your swim spa and locks securely to keep children and intruders out.

Canadian product

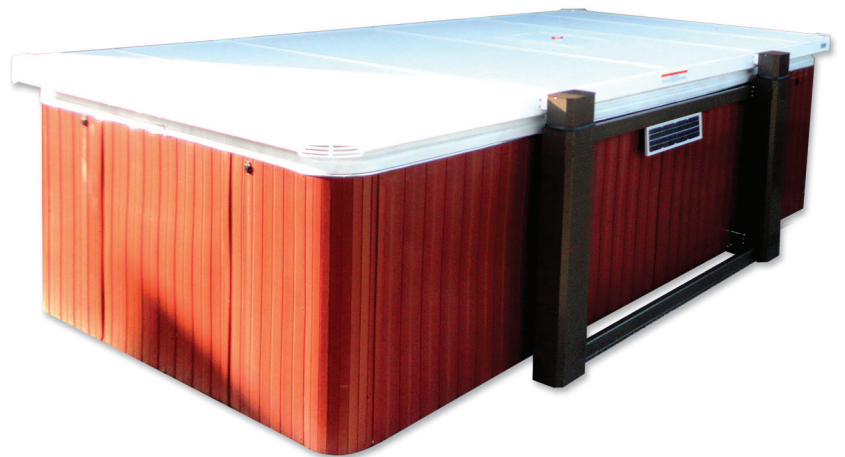

Manufactured in Canada, the Covana CS1000 is made to handle harsh weather conditions.

Energy efficient

The Covana CS1000 has a higher insulating value than a standard cover. In addition, it seals the spa, keeping heat and energy in. Optimal water retention means the COVANA saves water, energy and maintenance products.

Simple

Designed for greater simplicity, the CS1000 is innovative, versatile and compatible with both rounded and rectangular spas from 3.7 m to 6.1 m (12' to 20'). Operating on 24 V, it is supplied with two rechargeable battery packs and a charger that can be plugged into 230 volts in Europe and 115 volts in North America.

Made in Canada

UL, ULC and ASTM approved.
CE Certified
