

## Titanium Dioxide Anatase DHA-100

DHA-100 is a first grade Anatase product, produced with advanced technology, such as water washing and deionizing water technology, etc.

### Technical data parameter

Items	Standard
Content of TiO2% (m/m)	98.0 (MIN)
Tinting strength compare with standard%	100 (MIIN)
L*	98.2 (MIN)
B*	0.2-0.9
PH of water suspension	6.5 - 8.0
Oil absorption g/ 100g	23 (MAX)
Residue (45 μm) % (m/m)	0.05 (MAX)
Soluble matter in water (m/m)	0.6 (MAX)
Resistivity of water extract Ωm	20 (MIN)
Fe Content %	0.005 (MAX)

( Standard: Q/LXGX J3-01-2009 )

◆ **Property:**

Excellent dispersivity & tint strength  
Super whiteness & stability

◆ **Packaging:**

25 KG in PP / Paper Bag.  
Big Bags on request

◆ **Application:**

★Paints ★Plastic ★PVC

★Rubber ★Paper ★Detergents

★Catalytic Applications

GUANGXI BLUESTAR DAHUA CHEMICAL CO.,LTD.  
ISO9001:2008 CERTIFIED COMPANY
